PROFESSIONAL SUMMARY

Award-winning bilingual (English/Spanish) broadcast journalist and media professional experienced in anchoring and producing live newscasts and delivering accurate coverage under deadline pressure. Combines on-air and production skills with guest-facing operations experience at The Walt Disney Company and current work in AI analysis and mobile app development.

EXPERIENCE

Main Anchor, Producer & Live Shot Leader

Aug 2021 – Dec 2024

OU Nightly — Norman, OK

- Anchored live nightly newscasts, responding calmly and clearly to breaking news and technical disruptions.
- Researched, wrote, and delivered stories on tight deadlines, translating complex information into clear, engaging content for broad audiences.
- Led live-shot logistics as Live Shot Leader, managing on-location broadcasts and ensuring seamless integration with the studio desk.

Guest-Facing Cast Member — General Teller

Jan 2025 – Present

The Walt Disney Company — Lake Buena Vista, FL

- Resolve guest conflicts and turn negative experiences into positive outcomes through sound judgment and quick decision-making.
- Process high-volume transactions while navigating multiple applications across dual monitors, maintaining accuracy and confidentiality.
- Deliver consistent, high-touch service in both English and Spanish to a diverse, international guest base.

AI Analyst & Model Trainer

Aug 2025 – Present

Handshake AI — Remote

- Evaluate large language model outputs across 1,000+ responses, applying structured comparative judgment for relevance, accuracy, and coherence.
- Maintain a 95%+ annotation accuracy and reviewer-agreement rate while meeting high-volume daily quotas under tight deadlines.
- Contribute to reinforcement learning from human feedback (RLHF) through consistent, data-driven evaluations used to refine model performance.

CURRENT PROJECTS

Co-Founder & Engineer — ActiveMind (iOS Wellness App)

March 2026 – Present

Independent — Live on the Apple App Store

- Built and launched a React Native wellness app to the Apple App Store, owning engineering, creative direction, and branding end to end.
- Lead an ongoing product roadmap — feature development, full brand refresh, and release management — demonstrating self-direction and follow-through.

AI Evaluation & Visual Reasoning Projects

Ongoing

Independent / Contract — Remote

- Design and test challenging visual-reasoning and data-interpretation prompts to probe model limitations, documenting failure patterns against detailed quality rubrics.

EDUCATION

Bachelor of Broadcast Journalism, Minor in Communications

December 2024

University of Oklahoma — Norman, OK

AWARDS & HONORS

- Broadcast Education Association (BEA) Award Winner — Anchor, 2023 and 2024.
